

Entry Level - Full Stack PHP/Applications Developer

Are you looking for a place to start your career that is innovative and team-oriented? Then you should check us out!

We are looking for a college Graduate with 2 – 4 years of experience as a PHP Developer with strong analytical and problem-solving skills. Your primary focus will be developing and maintaining PHP applications that interact with the database in response to requests from the front-end. Experience with SQL and front-end technologies is required.

Duties include but are not limited to:

- Modify and develop software based on user needs.
- Balance multiple projects and adapt to changing priorities.
- Define objectives by analyzing user requirements, and envisioning system features and functionality.
- Ensure system performance.
- Collaborate with developers, analysts, and users.

Qualifications:

- Knowledge of database structures and application development equivalent to a two-year college degree.
- Strong experience with PHP and/or other development languages.
- Strong understanding of SQL Language (MySQL or MS SQL experience preferred)
- The following experience is preferred but not required:
 - Work requires three to five years in the software development environment.
 - Basic server administration
 - Linux
 - JavaScript, Query, AJAX (XML HTTP Requests)
 - Experience developing eCommerce solutions.

Come join the Geiger business family, the largest family-owned Promotional Product Distributor, in Lewiston, ME.

- Full benefits package
- Education reimbursement
- Profit-sharing
- 401k (with a match!)
- Bonuses for industry certification

Geiger is an Equal Opportunity/Affirmative Action Employer
